

Course Details

Duration:

1 day (9.30AM – 5.00PM)

Location:

Harrow, London, UK

Price:

£600.00 + VAT per person

Adobe Photoshop - Level 1

This course develops beginners with little to no experience of Photoshop into intermediate users that can create and edit images with flair and ease on Adobe Photoshop – the industry standard software for all kinds of image-related work.

The training provided will enable delegates to be able to produce a wide range of images for both web and print, including newsletters, email campaigns, websites, advertisements and sales material.

Students will learn the fundamentals of Photoshop on this 1 day course with the practical use of real-life scenarios, as well as giving useful tips along the way to speed up day-to-day tasks.

The course will cover how to navigate in Photoshop, alter image characteristics, correct images and how to retouch and repair graphics.

Target Audience

This course serves a diverse audience, from marketing professionals who want to create and edit images for newsletters, blogs, websites and promotions; through to students with an interest in graphic design.

Prerequisite

No prior knowledge or experience of Photoshop is required but delegates must have a working knowledge of Windows.

Qualification

Certificate of Attendance
